

Student Ambassador Report

Vyom Mahajan participated in Take Action May 2021 as a Student Ambassador of Change. Through this role he successfully completed a TAKE ACTION project towards sustainable homes while also facilitating a group of students.

We would specifically like to appreciate Vyom's consistency across the ideation, planning, execution and documentation phases of the initiative.

Vyom's ACTION was simple, quirky, feasible and immediately implementable. His clarity in communicating his purpose and the project through audio and video make it a point of inspiration.

Summary of Vyom's TAKE ACTION journey

Research

Identify

Ideate

Implement

Celebrate

Vyom encouraged and led a group of 3 students through the 5 week process through discussion, brainstorming and sharing of ideas. Leading by example was a big part of what helped others in Vyom's group to Take Action with him.
